

Have we piqued your interest?

In 4 Steps to Success:

1. Contact us and we will make an appointment with you convenient to your time and availability.

2. Together we will identify the obstacles blocking access to income generation possibilities and determine the extent of consultation needed.

3. This is followed by active support and practical advice to reduce or eliminate the obstacles.

4. We will also continue to provide support even after successful entry into the labor market.

Projekt „Stark im Beruf – Mütter mit Migrationshintergrund steigen ein“

A Project for Mothers with Migration Background

in cooperation with:

Bundesagentur
für Arbeit

jobcenter

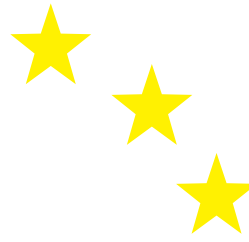

I am a mother and I want to finally work again and earn money - but, I do not know how!

- Insufficient Language Skills
- Recognition of Professional Qualifications
- No School Certificate
- No University Degree
- No Access to Companies
- Problems with Job Applications
- Lack of Childcare Options
- Temporal and spatial Constraints
- Fear of Bureaucracy
- Implementation of the Business Idea

Let us work together to overcome these obstacles!

**Zusammen.
Zukunft.
Gestalten.**

Will the project cost me anything?

No! Participation in the project is free. The project is funded by the ESF.

Who is allowed to participate?

Participation is open all mothers with a migrant background, irrespective of their nationality.

You are considered to have a migrant background if you yourself, or at least one parent or your grandparents migrated to Germany.

Where the project will take place?

Our training rooms are in the Saarländer Straße 17 in 04179 Leipzig.

But we can also provide support at a location convenient to you. This is decided individually.

What is our offer to you?

Together, the way into the working world (career or other income possibilities) should be simplified for mothers with migrant background. Whether the cause is insufficient language skills or even a lack of know-how regarding the implementation of a business idea, we will accompany you to overcome these obstacles. The compatibility between work and family life is of course very important. We can help you to make yourself fit again for the career world, i.e. through

- Electronic Data Processing Training (German: EDV)
- Creation of Job Applications
- Search and Preparation for Internship/Traineeship
- Language Training
- Competence/Skill Development
- Questions about Self-employment or Starting a Business

Individual coaching and individual support is also possible.

**Now it's up to you!
Contact us and simply
arrange an appointment!**
